Email: ieee.just.studentbranch@gmail.com

Acknowledgements

The successful compilation of this Annual Report and the flawless execution of the 2024-2025 tenure would not have been possible without the relentless dedication, creativity, and administrative discipline of our working committees. While the events take center stage, it is the tireless work behind the scenes that truly drives our Student Branch forward.

The Backbone of Documentation: vTools Management We extend a special note of gratitude to our Administrative and Secretariat Team for their discipline in maintaining real-time event reporting on IEEE vTools. Their consistency in updating event data, attendance records, and activity reports immediately after every program has been the backbone of our documentation process. This unwavering attention to detail not only ensured transparency with IEEE Headquarters but also significantly expedited the creation of this Annual Report, ensuring no milestone was left unrecorded.

We are deeply indebted to our Graphic Design and Content Creation Wing. Their artistic vision transformed our raw ideas into visually compelling flyers, banners, certificates, and the layout of this very report. Their ability to maintain a professional and distinct brand identity has played a crucial role in elevating the public image of IEEE JUST SB.

Our Social Media & Public Relations Team deserves immense praise for bridging the gap between the branch and the student community. Their tireless efforts in content curation, caption writing, and digital engagement ensured that our initiatives reached every corner of the campus and beyond. They are the reason our message of innovation resonates so widely.

We acknowledge the Executive Committee (2024-2025) for their leadership and the entire Volunteer Corps for their execution. From logistics and technical support to food management and venue decoration, your "boots on the ground" efforts turned ambitious plans into successful realities.

Finally, we thank our Counselor and Advisors for their strategic oversight, which empowered us to perform these duties with confidence and precision.

Overview of IEEE JUST Student Branch

The IEEE Jashore University of Science and Technology Student Branch (IEEE JUST SB) is established as a premier technical and professional community dedicated to the advancement of technology for humanity. Operating under the jurisdiction of the IEEE Bangladesh Section within Region 10 (Asia-Pacific), the Branch serves as a bridge between academic learning and industrial application for students in Electrical and Electronic Engineering (EEE), Computer Science (CSE), Biomedical Engineering (BME), and related technical disciplines.

- **Branch Code:** STB60212245
- **Establishment Date:** 20 April 2023

Establishment History

The formation of the branch was driven by a vision to establish a collaborative ecosystem for technical development within the university.

- **Global Recognition:** Official approval was received from the IEEE Member and Geographic Activities (MGA) Board on **20 April 2023**.
- **Institutional Recognition:** The branch was officially recognized and approved by the Office of the Student Counseling and Guidance, JUST, on **30 September 2023**.

Mission & Vision

The mission of the Branch is to provide a dynamic platform for students to enhance technical skills, cultivate leadership qualities, and foster connections among individuals across engineering and technology disciplines.

IEEE JUST SB is strictly committed to the maintenance of an inclusive, respectful, and professional environment. A strong Code of Conduct is adhered to, prioritizing diversity and collaborative learning to ensuring every member is empowered to contribute.

Annual Statistics (2024-2025)

The past tenure was marked by significant growth and active engagement within the student community.

Total events conducted in executive year 2024-25	26
Total IEEE international student members in executive year 2024-25	56
Total IEEE JUST Student branch members in 1st one year	37

Organizational Structure & Units

The scope of the Branch is extended through specialized technical societies and affinity groups, designed to cater to specific academic and professional interests:

1. **IEEE Signal Processing Society (SPS) JUST Student Branch Chapter:** This chapter focuses on the theory and application of signal processing, offering deep technical insights into the field.
2. **IEEE Women in Engineering (WIE) JUST Student Branch Affinity Group:** This group is dedicated to the promotion of women engineers and scientists, inspiring female students on campus to pursue academic interests and careers in engineering.

Advisory Committee for the Tenure 2024-25

(Not According to Seniority)

Name & Designation	Photo
Md. Amzad Hossain, Dr. Eng. Counselor, IEEE JUST Student Branch Adviser, IEEE JUST SPS Student Branch Chapter Associate professor Department of Electrical and Electronic Engineering, JUST ma.hossain@just.edu.bd	
Dr. Mehedi Hassan (Jewel) Adviser, IEEE JUST Student Branch Associate professor Department of Electrical and Electronic Engineering, JUST m.hassan@just.edu.bd	
Dr. Md. Kamrul Islam Adviser, IEEE JUST Student Branch Associate professor Department of Computer Science and Engineering, JUST mk.islam@just.edu.bd	
Dr. Farzana Khanam Adviser, IEEE JUST Student Branch Adviser, IEEE WIE JUST Student Branch Affinity Group Assistant professor Department of Biomedical Engineering, JUST farzanabme@just.edu.bd	
Dr. Md Biplob Hossain Adviser, IEEE JUST Student Branch Assistant professor Department of Electrical and Electronic Engineering, JUST mbhossain.eee@just.edu.bd

IEEE SPS JUST Student Branch Chapter	03
IEEE WIE JUST SB AG	01
Collaborative Initiatives	03

Meet & Greet: Introducing the 2024-25 Executive Committee with the IEEE JUST SB Counselor

Location: Room 233, Sir Jagadish Chandra Academic Building, JUST	Event Date: 14/09/2024 Time: 11:30 am – 1:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Administrative	Mode: Offline
	 View at IEEE Vtools

The Counselor of IEEE JUST Student Branch, Md. Amzad Hossain Dr. Eng. Sir, has officially approved the new Executive Committee for the tenure 2024-25 and he warmly welcomed the new ExCom members with a bouquet as a gesture of support and appreciation.

Speakers: Md. Amzad Hossain, Dr. Eng (Counselor, IEEE JUST Student Branch)

Agenda:

- To meet and Introduce new Excom members with the Counselor
- To discuss on future plan
- To execute a Seminar or Program as soon as possible
- To discuss IEEE Day 2024 and IEEEExtreme 18.0

The new Excom member along with the Chair discussed on various future plans.

IEEE Student Membership Development Drive 2024

Location: Room 203, Sir Jagadish Chandra Academic Building, JUST	Event Date: 18/09/2024 Time: 10:30 am – 11:30am
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Administrative	Mode: Offline
	 View at IEEE Vtools

The IEEE Student Membership Development Drive 2024 was organized with the primary objective of inspiring the student body to become active members of the world's largest technical professional organization. The session was designed to engage students from the Department of Electrical and Electronic Engineering (EEE), fostering a community of innovators and future leaders under the banner of IEEE JUST Student Branch.

Speakers:

- Abdullah Shadek Fahim (Chair, IEEE JUST Student Branch)
- Musavvir Haque (Vice Chair Activity, IEEE JUST Student)
- Rifat Islam Rony (Publication Coordinator, IEEE JUST Student Branch)

Agenda:

- **SIntroduction to IEEE:** Providing a comprehensive overview of IEEE's mission, vision, and its global impact on technology and humanity.
- **Showcase of Past Activities:** Demonstrating the track record of IEEE JUST SB by highlighting successful workshops, seminars, and industrial tours organized in the previous tenure.
- **Opportunities for Students:** discussing the vast array of benefits available to student members, including access to IEEE Xplore, scholarships, competitions, and global networking.
- **Membership Recruitment:** Promoting the value of joining IEEE JUST SB and outlining the steps for registration and active participation.

IEEE Day 2024 Celebration at IEEE JUST SB

Location: JUST Campus	Event Date: 01/10/2024 Time: 1:00 pm – 2:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Non Technical	Mode: Offline
  View at IEEE Vtools	

The **IEEE Day 2024** was celebrated with significant fervor and enthusiasm by the IEEE Jashore University of Science and Technology Student Branch (IEEE JUST SB). The event served as a global celebration of the IEEE community, bringing together students, faculty, and industry leaders to reflect on the impact of technology on humanity.

The occasion was distinguished by the presence of the university's highest administration, including the Vice Chancellor, the Dean of the Faculty of Engineering and Technology, and the Chairman of the Department of Electrical and Electronic Engineering (EEE). The gathering provided a unique opportunity for student members to interact with academic leaders and reflect on the branch's journey.

Program Agenda:

The celebration was structured around a comprehensive agenda designed to acknowledge contributions, inspire members, and foster community spirit:

1. **Opening Ceremony:** Welcome address and acknowledgment of distinguished guests and faculty.
2. **Keynote Addresses:** Strategic insights delivered by the Vice Chancellor, Dean, and Department Chairman.
3. **Counselor's Address:** Appreciation of student efforts and encouragement for active participation.
4. **Advisors' Insights:** Motivational messages from Dr. Syed Md. Galib and Dr. Mehedi Hasan Jewel regarding continuous learning.
5. **Commemoration:** A vibrant Cake-Cutting Ceremony to mark the global IEEE Day.

6. **Networking & Refreshments:** An informal session for students and faculty to exchange ideas and discuss future technological initiatives.

Speakers:

Prof. Dr. Md. Abdul Mazid	Vice Chancellor, JUST
Dr. H. M Zakir Hossain	Dean, Faculty of Engineering & Technology
Dr. Imran Khan	Chairman, Dept. of EEE, JUST
Md. Amzad Hossain Dr. Eng.	Counselor, IEEE JUST SB

The formal proceedings were followed by a celebratory Cake-Cutting Ceremony, symbolizing the unity and shared purpose of the IEEE community. The day concluded with a networking session where students, faculty, and the executive committee engaged in discussions regarding the future roadmap of the branch, strengthening the bond between the department and the student body.

IEEEExtreme 18.0 Programming Competition 2024

Location: Simulation Lab, Dept. of EEE, JUST	Event Date: 26/10/2024 Time: 10:00 am – 2:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Hybrid
	 View at IEEE Vtools

The **IEEEExtreme 18.0 Programming Competition** was successfully hosted by the **IEEE JUST Student Branch**, serving as a local hub for this prestigious global event. Organized globally by IEEE, IEEEExtreme is an intense 24-hour hackathon-style challenge that tests the endurance, logical reasoning, and coding proficiency of student members worldwide.

The 2024 edition witnessed the active participation of **17 dedicated teams** from the branch. These teams, composed of the university's most promising programmers, competed against peers from around the globe, solving a diverse array of algorithmic and computational problems under strict time constraints.

Agenda:

The primary focus of the event was to provide a competitive yet collaborative environment for students to measure their skills against global standards.

- **Global Competency:** To enable students to compete on an international platform without leaving the campus.
- **Collaborative Problem Solving:** To foster teamwork and adaptability by challenging participants to solve complex problems under pressure.
- **Facilitation:** To provide the necessary logistical and technical support required for a grueling 24-hour coding marathon.

Speaker:		
Abdullah Shadek Fahim	Chair, IEEE JUST SB	Introduction to IEEEExtreme 18.0 Provided strategic directions for the competition and guidelines on navigating the exam platform efficiently.

The atmosphere remained charged with intellectual energy throughout the 24-hour duration. The participating teams demonstrated remarkable perseverance and camaraderie, tackling difficulties ranging from basic logic to advanced algorithms. The event not only honed their technical abilities but also strengthened the coding culture within the IEEE JUST Student Branch.

Webinar on Applying Electrical Engineering and Computer Science to The Humanities

Location: Google Meet	Event Date: 15/10/2024 Time: 9:00 pm – 11:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE Prime University Student Branch
Event Type: Technical	Mode: Online
 WEBINAR ON APPLYING ELECTRICAL ENGINEERING AND COMPUTER SCIENCE TO THE HUMANITIES TIME: 9:15 PM (BANGLADESH STANDARD TIME) FRIDAY, 15TH NOVEMBER Speaker: DR. ELISA BARNEY IEEE DISTINGUISHED VISITOR & MACHINE LEARNING PROFESSOR TECHNICAL LULU UNIVERSITY OF TECHNOLOGY (LULU), SWEDEN Host: RATUL HASAN GRAPHIC DESIGNER, IEEE JUST SB MEETING MEDIUM:    JOINTLY ORGANIZED BY:   HOSTED BY:   /ieeedb.justsb https://edu.ieee.org/bd-just/ OPEN TO ALL View at IEEE Vtools	

An insightful international webinar titled "Applying Electrical Engineering and Computer Science to the Humanities" was conducted by the IEEE JUST Student Branch. The session was organized to shed light on the innovative convergence of technical disciplines—specifically Machine Learning and Computer Vision—with the humanities.

The webinar attracted a diverse audience comprising technical enthusiasts, humanities scholars, and curious learners. It provided a unique platform to explore how engineering principles are being utilized to solve complex problems in non-technical domains, reflecting the interdisciplinary nature of modern research.

Agenda

Key highlights of the event:

- A comprehensive discussion on bridging the gap between technology and the humanities.
- An engaging interactive Q&A session, where participants connected directly with Dr. Barney to deepen their understanding.
- Free digital certificates awarded to participants, acknowledging their learning experience.

Speaker's biography:

Elisa Barney Smith is a professor at Luleå University of Technology (LTU), Sweden which she joined after a 22 year career in the Electrical & Computer Engineering department at Boise State University in Boise Idaho USA. She is in LTU's Machine Learning group in the Department of Computer Science, Electrical and Space Engineering, Embedded Internet Systems Lab (EISLAB).

Professor Barney's research focuses on image processing and machine learning. She has applied her knowledge to solve problems in many fields such as document analysis, materials science, biomedical engineering, and groundwater remediation. In April 2019 she gave a [TEDx talk](#) on her research in the Digital Humanities.

She has been a visiting professor at University of the Saarland (Germany), LORIA (France) and Telecom ParisTech(France), and TU Dortmund (Germany) during her sabbaticals and summers.

Dr. Barney Smith is a member of IEEE (Institute of Electrical and Electronics Engineers) and SPIE (Society of Photo-optical Instrumentation Engineers). She was chair of the Boise section of IEEE from 2000-2003, and chair of Region 6's North-East Area from 2009-2013. She was chair of IEEE's global Student Activities Committee in 2019 & 2020. She was selected to be a Distinguished Visitor in the IEEE Computer Society's [Distinguished Visitor program](#) starting in 2023.

Email: ebarneysmith@boisestate.edu

Address:Luleå Technical University, Sweden

Event Highlights

- **Strategic Discussions:** Dr. Barney shared her extensive research experience, illustrating how automated target classification and acoustic data analysis concepts are adapted for digital humanities.
- **Interactive Q&A:** An engaging Question and Answer session allowed participants to connect directly with the speaker, deepening their understanding of interdisciplinary collaboration.
- **Counselor's Address:** The session was graced by the presence of Dr. Eng. Md. Amzad Hossain, Counselor of IEEE JUST SB, who expressed gratitude to the speaker for her invaluable contribution to the students' broadening horizons.
- **Certification:** Digital certificates were awarded to active participants, acknowledging their engagement in this cross-disciplinary learning experience.

Igniting Spark! Mini Workshop on Basic Robotics

Location: Sir Jagadish Chandra Bose Academic Building	Event Date: 11/12/2024 Time: 11:00 am – 1:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Offline
	 View at IEEE Vtools

In an effort to foster a culture of technical innovation among fresh minds, the IEEE JUST Student Branch organized a hands-on session titled "Igniting Spark! Mini Workshop on Basic Robotics." This initiative was designed to serve as a gateway for junior students into the world of robotics, demystifying complex concepts through practical demonstration and mentorship.

The workshop was conducted by four distinguished student members who have recently represented the university in national technological competitions. By sharing their first-hand experiences, they succeeded in sparking curiosity and enthusiasm among the attendees, setting the stage for future robotics projects within the branch.

2. Objectives & Agenda

The primary aim of the workshop was to bridge the gap between theoretical knowledge and practical application.

- **Fundamental Training:** Introducing the core components of robotics, including microcontrollers (Arduino), sensors, and actuators.
- **Practical Application:** Demonstrating the construction and logic behind a Line Following Robot (LFR).
- **Inspiration through Experience:** Sharing real-world insights from competitive robotics to motivate students to participate in external tech events.

Session Conductors:

Jahidul Islam Shanto (Webmaster, IEEE JUST Student Branch)	Basic Robotics for Beginners Covered the anatomy of a robot, sensor integration, and provided live demonstrations of robotic mechanisms to explain underlying principles.
Md. Mustakim Islam (Program Coordinator, IEEE JUST Student Branch)	Experience Sharing: From Campus to Competition Shared personal experiences from recent robotics competitions, discussing challenges faced and strategies for success in national tech events.

Event Highlights

- **Live Demonstrations:** Attendees witnessed the operation of a functional Line Following Robot (LFR), observing how code interacts with hardware in real-time.
- **Interactive Mentorship:** The session allowed for a two-way dialogue where freshers could ask questions about getting started with Arduino and Raspberry Pi.
- **Outcome:** The workshop successfully identified a group of enthusiastic students interested in forming the next robotics project team for the branch.

Webinar on Ethical AI in Education: Opportunities & Challenges

Location: Google Meet	Event Date: 20/02/2025 Time: 8:00 pm – 10:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Online
	

With the rapid integration of artificial intelligence in academic spheres, the IEEE JUST Student Branch organized a pivotal webinar titled "Ethical AI in Education: Opportunities & Challenges." The session was designed to navigate the complex landscape of AI-driven learning tools while emphasizing the critical importance of ethics.

The webinar attracted a wide range of participants, including students, researchers, and educators, all keen to understand how to leverage AI tools responsibly. It also highlighted the significance of Ethical AI in Education (EAIED) in shaping the future pedagogy of engineering and technology.

Agenda:

The session was structured to provide both practical knowledge and ethical guidance.

- **Tool Proficiency:** Introducing participants to AI-powered utility tools such as paraphrasers, summarizers, and translators to aid research.
- **Ethical Framework:** Discussing the moral implications of using AI in academia and the necessity of maintaining academic integrity.
- **Expert Dialogue:** Facilitating a direct engagement between students and an international expert in Data Science and Assistive Technology.

Speaker's Biography:

Assoc. Prof. Ts. Dr. Rajermani Thinakaran holds a Bachelor of Science in Computer Science from Universiti Teknologi Malaysia (UTM), a Master's in Information Technology from Universiti Kebangsaan Malaysia (UKM), and a Ph.D. from UTM. She is affiliated with the Faculty of Data Science and Information Technology at INTI International University, Negeri Sembilan, Malaysia, where she supervises undergraduate and postgraduate (Master's and Ph.D.) students.

Dr. Rajermani has published over 100 research papers in reputable international and local journals, conference proceedings, and book chapters. Her research spans several key areas, including Artificial Intelligence, Assistive Technology, eLearning, and gaming, focusing on theory, design, implementation, and sustainability. In addition to her academic and research contributions, Dr. Rajermani serves on the editorial boards of various journals and is an active technical reviewer for local and international publications and conferences.

Event Highlights

- **Technical Insight:** Dr. Rajermani provided a comprehensive walkthrough of various AI tools, explaining their practical applications in streamlining research workflows.
- **Token of Appreciation:** A special moment of gratitude was observed where Dr. Eng. Md. Amzad Hossain, Counselor of IEEE JUST SB and Dean of the Faculty of Engineering, presented a virtual token of appreciation to the speaker.
- **Community Engagement:** The speaker's approachable demeanor encouraged a vibrant Q&A session, where she invited participants to reach out for future collaboration.
- **Legacy:** The session was streamed live on Facebook to serve as a permanent resource for members, and e-certificates were distributed to validate the attendees' learning.

Webinar on Navigating EEE Private Sectors

Location: Google Meet	Event Date: 06/03/2025 Time: 10:00 pm – 11:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Non Technical	Mode: Online
	
	 View at IEEE Vtools

To bridge the gap between academic learning and industrial reality, the IEEE JUST Student Branch spearheaded a high-impact session titled "Navigating EEE Private Sectors." The webinar served as a strategic interface, bringing together aspiring engineers and esteemed industry leaders to explore the evolving landscape of career opportunities in Electrical and Electronic Engineering.

The session was hosted by Abdullah Shadek Fahim, who maintained a vibrant and interactive atmosphere, facilitating a seamless dialogue between the students and the corporate experts. The event was further distinguished by the presence of academic stalwarts, Dr. Mehedi Hasan (Jewel) and Md. Amzad Hossain, Dr. Eng. whose participation underscored the strong academic foundation supporting these industrial engagements.

Agenda:

The primary objective of the webinar was to demystify the private sector for graduating students.

- **Industry Insight:** Providing real-time, experience-driven perspectives on the dynamics of the EEE private sector in Bangladesh and beyond.
- **Career Strategy:** Offering actionable advice on navigating recruitment challenges, skill development, and long-term professional growth.

- **Diversification:** Exploring roles beyond conventional engineering, highlighting the multifaceted nature of the industry.

Speakers:

Speaker Name	Affiliation	Key Topic & Insight
Jubaid Hasan	Deputy Assistant Director, Walton Digi-Tech Ltd.	Discussed career development paths within Bangladesh's booming electronics manufacturing industry.
Golam Md. Khatamunnaby Xion	Field Service Trainee, Wärsilä Corporation Ltd.	Shared technical field experiences regarding global power infrastructure and the need for adaptability.
Md. Shahalam Rakib	Assistant Engineer, ADEX Group of Companies Ltd.	PProvided insights into project management roles and strategies for climbing the corporate ladder.

Program Highlights:

The session followed a structured timeline to ensure a comprehensive coverage of topics:

- Opening Session: Welcome address and outlining of objectives.
- Keynote Talk: An in-depth look at the manufacturing sector challenges and leadership paths.
- Technical Talk: A focus on real-world technical exposure in energy systems.
- Professional Talk: Discussion on workplace dynamics and corporate growth.
- Special Contribution: Md. Masud Karim delivered a talk on "*Diverse Career Pathways*," enriching the dialogue with views on non-conventional engineering roles.
- Panel Discussion & Q&A: A moderated dialogue where speakers addressed audience queries, followed by a Vote of Thanks.

IEEE JUST Iftar Mahfil 2025

Location: 1 st floor, Sir Jagadish Chandra Bose Academic Building, JUST	Event Date: 15/03/2025 Time: 5:30 pm – 7:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Non Technical	Mode: Offline
	 View at IEEE Vtools

In observance of the holy month of Ramadan, the IEEE JUST Student Branch organized a Grand Iftar Mahfil on March 15, 2025. The event was held at the 1st Floor of the Sir Jagadish Chandra Bose Academic Building, serving as a spiritual and communal gathering for the department.

The event was organized to foster a sense of brotherhood and tranquility, bringing together students, faculty members, and the executive committee in an atmosphere of gratitude. It provided a serene environment for spiritual reflection while strengthening the bond between the academic staff and the student body.

Objectives:

The gathering was convened with specific community-building goals:

- **Fostering Brotherhood:** To unite members from different academic years under the spirit of Ramadan.
- **Student-Faculty Interaction:** To facilitate informal and meaningful communication between students and teachers outside the classroom environment.

Distinguished Guests:

The occasion was graced by the presence of respected faculty members - Dr. Md. Moznuzzaman, (Associate Professor) and Jahidul Islam (Lecturer) from the Department of Electrical and Electronic Engineering, whose participation added significance to the event.

Elevate Your Career: A Comprehensive Seminar on Freelancing

Location: Central Gallery, JUST	Event Date: 28/04/2025 Time: 2:00 pm – 5:00pm
Organizer: IEEE JUST Student Branch	Powered by: SR Dream IT
Event Type: Professional	Mode: Offline
	
	 View at IEEE Vtools

A transformative professional development seminar titled "Elevate Your Career" was organized by the IEEE JUST Student Branch in strategic collaboration with SR Dream IT.

The seminar served as a convergence point for digital marketing experts and leading freelance mentors, offering deep insights into personal branding, client retention, and AI-driven market dynamics. It marked a significant milestone in the professional growth journey of the attendees.

Agenda:

The seminar was curated with specific career-oriented goals:

- **Skill Acquisition:** To equip participants with actionable strategies for building scalable freelance careers.
- **Market Analysis:** To explore emerging trends, specifically the integration of AI in marketing and automation.
- **Professional Networking:** To facilitate direct interaction between students and industry professionals to foster mentorship.

Resource Persons & Experts:

The session featured a lineup of industry practitioners from SR Dream IT, each covering a specific niche of the digital economy.

Speaker Name	Designation	Topic of Discussion
Shaiek Ahmed	Digital Marketing Mentor & Top Rated Freelancer, SR Dream IT	Freelancing in 2025: Opportunities & Realities Discussed the future landscape of the gig economy.
Rayhan Ahmed	Marketing Executive, SR DREAM IT	Building a Personal Brand Focused on establishing a digital presence in a competitive world.
Faisal Ahamed	Sr. Digital Marketing Asst. Trainer, SR DREAM IT	AI Integration & Automation Demonstrated tools for marketing efficiency.
Mahi Islam Barshan	Sr. Digital Marketing Support Trainer, SR DREAM IT	Client Acquisition & Retention Strategies for getting clients and ensuring repeat business.

Event Highlights

- **Expert Sessions:** The core of the event comprised technical talks on navigating the 2025 marketplace, emphasizing that technical skill alone is insufficient without personal branding.
- **Interactive Engagement:** To ensure active learning, the seminar included a Quiz Competition and an Idea Sharing Session, encouraging the audience to voice their queries.
- **Recognition & Resources:** The event concluded with the distribution of certificates and career-boosting resources (notebooks and pens). A formal networking session allowed participants to connect personally with the mentors.

Ice Breaking Session for Newly Recruited Members

Location: Google Meet	Event Date: 05/07/2025 Time: 9:30 pm – 11:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Administrative	Mode: Online
	
 View at IEEE Vtools	

The **IEEE JUST Student Branch** successfully hosted its highly anticipated **Ice Breaking Session**, marking the formal induction of the newest generation of student members. The session was envisioned as an introductory platform aimed at dismantling initial communication barriers, fostering a spirit of camaraderie, and setting a collaborative tone for future engagement.

The event served as a bridge between the senior executive committee and the fresh recruits, ensuring that new members felt welcomed and integrated into the IEEE ecosystem immediately upon joining.

Objectives & Agenda:

The session was structured to address the common apprehensions of new students while outlining the branch's vision.

- **Orientation:** To highlight the importance of joining professional organizations starting from the freshman year.
- **Guidance:** To provide strategies for maintaining a healthy balance between academic responsibilities and club activities.
- **Legacy & Vision:** To narrate the inspiring journey of IEEE JUST SB and unveil the strategic roadmap for the upcoming tenure.

Distinguished Guests & Speakers

The event was graced by the Branch Counselor and led by key student leaders who shared their personal experiences.

Role/Speaker	Designation	Topic of Discussion
Guest of Honor	Md. Amzad Hossain, Dr. Eng. Counselor, IEEE JUST SB	Leadership & Motivation Delivered a motivational address on the value of student leadership and professional development.
Speaker	Ratul Hasan Graphic Designer	The Importance of Early Engagement Discussed why joining clubs in the first year is crucial for skill development.
Speaker	Shakib Shahriar Social Media Coordinator	Balancing Academics & Activities Shared practical tips on managing time effectively between studies and volunteering.
Speaker	Musavvir Haque Vice-Chair (Technical)	The Journey of IEEE JUST SB Presented a historical overview of the branch's achievements and milestones.
Speaker	Abdullah Shadek Fahim Chair, IEEE JUST SB	Future Roadmap Unveiled the upcoming events and strategic plans for the branch.

Event Highlights

- **Host Excellence:** The session was flawlessly anchored by **Jahidul Islam Shanto**, ensuring a dynamic and engaging atmosphere throughout the event.
- **Interactive Dialogue:** An open-floor Q&A session allowed new members to voice their expectations and seek advice directly from the seniors.
- **Community Building:** The session successfully broke the ice, transforming a group of individual students into a cohesive community ready to collaborate on future technical and humanitarian projects.

IC Design, From Concept to Product - IEEE Young Professionals Bangladesh Talk Series 2025

Location: Zoom	Event Date: 31/07/2025 Time: 8:00 pm – 09:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE Young Professionals Bangladesh
Event Type: Technical	Mode: Online
	
 View at IEEE Vtools	

As part of the prestigious IEEE Young Professionals Bangladesh Talk Series 2025, a specialized technical session titled "IC Design: From Concept to Product" was organized. The event served as a high-level knowledge exchange platform, connecting students and aspiring engineers with global experts in the semiconductor industry.

The session was designed to provide a comprehensive roadmap of the Integrated Circuit (IC) design lifecycle, offering participants exclusive insights into modern System-on-Chip (SoC) verification practices and the evolving trends in semiconductor technology.

Objectives:

The webinar was convened with the following technical and professional goals:

- **Technical Proficiency:** To bridge the gap between academic theory and industrial application regarding IC design and verification.
- **Industry Awareness:** To highlight current challenges and technological shifts within the global semiconductor market.
- **Career Guidance:** To outline professional growth trajectories and required skill sets for aspiring Verification Engineers.

Distinguished Guests & Speakers

The event featured a panel of eminent academic and industry leaders who steered the discourse.

Role	Name & Affiliation
Chief Guest	Prof. Dr. Md. Abdul Mazid Vice Chancellor, Jashore University of Science and Technology (JUST)
Keynote Speaker	Rony Thomas Alex SoC Design Verification Engineer, Intel Corporation Chair, IEEE Kerala Young Professionals
Session Chair	Dr. Eng. Md. Amzad Hossain Counselor, IEEE JUST Student Branch Dean, Faculty of Engineering & Technology, JUST

Program Agenda

The session followed a structured timeline to ensure maximum value delivery:

- **Inauguration:** The event was commenced with opening remarks by the **Honorable Vice Chancellor**, who emphasized the importance of mastering semiconductor technologies for national development.
- **Technical Keynote:** A comprehensive presentation by **Rony Thomas Alex**, covering the journey from conceptualization to physical IC production, with a focus on verification methodologies.
- **Interactive Dialogue:** A dynamic Q&A session where participants engaged with the speaker regarding industry entry barriers and technical nuances.

5. Event Highlights

- **Global Connection:** The session successfully linked students from Bangladesh with industry insights from **Intel Corporation** and the **IEEE Kerala Section**, fostering cross-border professional networking.
- **Expert Hosting:** The proceedings were seamlessly facilitated by **Abdullah Shadek Fahim** and **Md. Ratul Hasan**, ensuring a professional and engaging atmosphere throughout the event.
- **Outcome:** Participants gained a clear understanding of the "Concept to Product" pipeline, significantly enhancing their technical outlook on electronics and IC design.

Panel Discussion on Emerging Research and innovation Topics in the Smart World

Location: Zoom	Event Date: 31/07/2025 Time: 9:30 pm – 11:30pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE Young Professionals Bangladesh
Event Type: Technical	Mode: Online
	
 View at IEEE Vtools	

As a cornerstone of the IEEE Young Professionals Bangladesh Talk Series 2025, a high-level Panel Discussion titled "Emerging Research and Innovation Topics in the Smart World" was convened. The session was organized to explore the transformative intersection of Artificial Intelligence, Biomedical Engineering, and Advanced Computing.

The event served as a strategic guidance session for students and early-career researchers, providing them with a roadmap to navigate the complexities of modern research methodologies and high-impact publications.

Objectives & Scope:

The discussion was curated to address three critical pillars of modern engineering:

- **Technological Convergence:** Exploring the synergy between Deep Learning, Machine Learning, and traditional programming in creating "Smart" systems.
- **Healthcare Innovation:** Highlighting AI-driven innovations in Biomedical Engineering, specifically in signal processing and neuro-imaging.
- **Research Mentorship:** Providing actionable guidance on academic writing, selecting journals, and achieving high-quality publications.

The Panel:

The session was moderated by a distinguished researcher from IEEE Young Professionals and featured expert academicians from JUST.

Role	Speaker Profile	Expertise & Focus
Moderator	Dr. Md. Aminul Islam Vice-Chair (Technical), IEEE YP Bangladesh	Research Methodology Steered the discussion on Microwave Engineering and academic excellence in publication.
Panelist	Dr. Md. Mehedi Hasan Asst. Professor, Dept. of EEE, JUST	AI & Computing Provided insights on integrating programming with hardware and the future of Deep Learning.
Panelist	Dr. Farzana Khanam Asst. Professor, Dept. of BME, JUST Adviser, IEEE JUST Student Branch	Biomedical Engineering Discussed Functional Neuro-Imaging and the application of AI in rehabilitation engineering.

Discussion Highlights

- **Interdisciplinary Research:** The panelists emphasized that the "Smart World" relies on the dissolution of boundaries between EEE, CSE, and BME.
- **Biomedical Advances:** Dr. Farzana Khanam shed light on how signal processing is revolutionizing skeletal muscle physiology and cardiovascular rehabilitation.
- **Publication Strategy:** Dr. Aminul Islam provided critical advice on structuring research papers to meet international standards, drawing from his extensive experience with ARC projects in Australia.

Engagement & Conclusion

- **Interactive Quiz:** Following the technical discourse, a lively **Interactive Quiz Session** was conducted by **Nazia Sultana Plabon**, reinforcing the key concepts discussed.
- **Closing:** The session concluded with a formal Vote of Thanks, acknowledging the collaborative efforts of IEEE Young Professionals Bangladesh and the student organizers in making the event a success.

TALK 01: Navigating the Thesis Journey: From Research to Writing Excellence – 45 MT Thesis Talk Series by IEEE JUST Student Branch

Location: Google Meet	Event Date: 11/08/2025 Time: 9:00 pm – 10:20pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Online
	

The **IEEE JUST Student Branch** proudly inaugurated its flagship academic initiative, the "**45 MT Thesis Talk Series**," with an engaging opening session. The series is envisioned as a comprehensive guide for final-year students, dismantling the complexities of academic research into manageable segments.

The inaugural talk, titled "**Navigating the Thesis Journey**," was delivered by a distinguished faculty member, guiding participants through the lifecycle of a thesis—from the initial spark of an idea to the final structured document.

Objectives & Scope:

The session was structured to address three critical challenges faced by undergraduate researchers:

- **Topic Selection:** Strategies to identify, refine, and validate impactful research areas.
- **Structural Integrity:** Best practices for organizing content logically to create a cohesive narrative.
- **Resource Management:** Introduction to digital tools like **Overleaf** and **Mendeley** to streamline citation and formatting.

Keynote Speaker: Dr. Mehedi Hassan (Jewel), Associate Professor, Dept. of EEE, JUST

Distinguished Guests

The event was honored by the presence of the department's leadership, whose encouragement added significant value to the initiative.

- **Dr. Engr Imran Khan** – Chairman, Dept. of EEE, JUST
- **Md. Amzad Hossain, Dr. Eng.** – Counselor, IEEE JUST SB
- **Dr. Farzana Khanam** – Adviser, IEEE JUST SB

5. Event Highlights

- **Holistic Guidance:** The talk provided a clear roadmap on "*where to search, what to search, and what to do,*" effectively removing the anxiety associated with thesis writing.
- **Alumni Perspectives:** The session featured insights from alumni **Md. Masud Karim** and **Sudipta Das Gupta**, who shared their post-graduate perspectives on the importance of a strong undergraduate thesis.
- **Interactive Q&A:** A lively Question and Answer segment allowed students to address specific hurdles they were facing in their current research.
- **Execution:** The session was seamlessly hosted by **Shakib Shahriar** and **Abdullah Shadek Fahim**, setting a high benchmark for the upcoming talks in the series.

PowerTech Explorers 2.0: IEEE JUST SB Industrial Visit to Khulna 330MW Dual Fuel Combined Cycle Power Plant

Location: Goalpara, BID IC Road, Khalishpur, Khulna 330 MW Dual Fuel Combined Cycle Power Plant, BPDB, Khulna, Bangladesh	Event Date: 13/08/2025 Time: 7:30 am – 5:00pm
Organizer: IEEE JUST Student Branch	Powered by: IEEE SPAX
Event Type: Technical	Mode: Offline
	
	 View at IEEE Vtools

Continuing its legacy of bridging the gap between academia and industry, the **IEEE JUST Student Branch** successfully organized "**PowerTech Explorers 2.0**" on **August 13, 2025**. The industrial visit took a delegation of **37 participants**, including faculty members and female students, to the **Khulna 330MW Dual Fuel Combined Cycle Power Plant**.

The tour was designed to provide students with a comprehensive understanding of large-scale power generation, moving beyond textbook theories to witness real-world engineering applications.

Objectives:

The visit was curated with specific educational and professional goals:

- Technical Exposure:** To observe the operational mechanics of turbines, generators, and combined cycle systems.

- **Industrial Insight:** To understand the safety protocols, infrastructure management, and technical challenges faced by modern power plants.
- **Networking:** To facilitate direct interaction between aspiring engineers and industry veterans.

Operational Insights & Tour Details:

Upon arrival, the delegation was accorded a warm reception by the plant authorities. The technical exploration was divided into key segments:

- **Field Visit:** Students toured the **Turbine and Generator Halls**, observing the massive infrastructure required for dual-fuel power generation.
- **Control Room Operations:** The team examined the centralized monitoring systems, gaining insights into grid synchronization and load management.
- **Interactive Session:** A highlight of the visit was an exclusive session with **Chief Engineer Md. Zahid Hossain**. A crest was presented to him as a token of gratitude for his mentorship.
- **Technical Speaker:** **Alamgir Hossain** provided a detailed breakdown of the *Operation and Insights of the Khulna 330 MW Plant*.

Faculty & Organizing Team:

The initiative was realized through the mentorship of **Dr. Mehedi Hassan Jewel**, with the valuable presence and support of **Md. Rabiul Islam** and **Shuvo Dev**.

- **Event Lead:** Abdullah Shadek Fahim (Chair, IEEE JUST SB)
- **Logistics & Coordination:** Iftiar Rahman Emon & Saklain Mustak
- **Finance & Registration:** Md. Shahiduzzaman
- **Creative & Documentation:** Jahidul Islam Shanto & Ratul Hasan

The Journey:

The day extended beyond technical learning, serving as a significant team-building exercise.

- **Departure:** The team departed from the JUST Campus at 07:30 AM.
- **Social & Networking:** A communal lunch was enjoyed at *Golpata Rosui Ghor* in Khulna, followed by a reflective return journey.
- **Conclusion:** The team returned safely to campus at 07:00 PM, inspired and technically enriched.

TALK 02: Residential Customer Segmentation using Fuzzy C-Means: Insights from My Thesis – 45 MT Thesis Talk Series by IEEE JUST Student Branch

Location: Google Meet	Event Date: 20/08/2025 Time: 9:00 pm – 10:20pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Online
	

Building upon the momentum of the inaugural session, the IEEE JUST Student Branch hosted the second installment of the "45 MT Thesis Talk Series" on August 20, 2025. This session held special significance as it featured a distinguished alumnus and the Founding Chair of the branch, Md. Masud Karim, connecting current students with the branch's legacy of leadership.

The webinar provided a blend of academic depth and practical application, offering a detailed walkthrough of master's level research methodologies in power systems.

Objectives:

The session was curated to demonstrate the practical application of advanced algorithms in electrical engineering.

- **Smart Grid Application:** To illustrate how customer segmentation is utilized for demand-side management and tariff optimization.
- **Research Methodology:** To highlight the realities of research, including data cleaning, feature selection, and model validation.
- **Global Perspective:** To provide students with insights into the academic standards and research environment at top international universities like UTM, Malaysia.

Keynote Speaker:

The session was delivered by a researcher currently bridging the gap between advanced computing and power distribution.

Speaker Name	Affiliation	Research Focus
Md. Masud Karim	MPhil Researcher, Universiti Teknologi Malaysia (UTM) Former Chair, IEEE JUST Student Branch	Smart Grid Technologies Specializes in Fuzzy C-Means clustering for energy conservation and power quality monitoring.

Technical Highlights:

- **Algorithmic Application:** The speaker demonstrated the application of **Fuzzy C-Means clustering** to effectively categorize households based on diverse consumption patterns.
- **Grid Reliability:** Insights were shared on how segmentation leads to enhanced grid reliability and energy conservation policies.
- **Research Challenges:** Unlike theoretical textbooks, the talk addressed real-world hurdles such as **performance tuning** and **model validation**, making the content highly relatable for aspiring researchers.

TALK 03: From Circuits to AI: Where Electrical Engineering is Headed – 45 MT Thesis Talk Series by IEEE JUST Student Branch

Location: Google Meet	Event Date: 28/08/2025 Time: 10:30 pm – 11:40pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Online
	

Continuing the momentum of the flagship initiative, the **IEEE JUST Student Branch** organized the third session of the "**45 MT Thesis Talk Series**" on **August 28, 2025**. This session expanded the horizon of traditional engineering discussions by hosting **Sudipta Das Gupta**, a distinguished alumnus currently bridging the gap between hardware engineering and artificial intelligence in the United States.

The talk provided a futuristic outlook, illustrating how the discipline of Electrical Engineering is evolving from classical circuit design to intelligent, AI-driven automation.

Objectives:

The session was designed to prepare students for the paradigm shift in the engineering landscape.

- **Technological Evolution:** To explore the convergence of AI with traditional electrical domains like semiconductor fabrication and embedded systems.
- **Career Adaptability:** To highlight the necessity of adaptability in a fast-changing technological world, moving from local industry roles to global research positions.
- **Interactive Learning:** To introduce gamified learning elements to keep the technical discourse engaging.

Keynote Speaker:

The session was delivered by an engineer with a diverse portfolio spanning renewable energy and advanced computing.

Speaker Name	Current Role	Expertise
Sudipta Das Gupta	Ph.D. Scholar, North Dakota State University, USA Solar System Engineer, Neural Semiconductor	Interdisciplinary Engineering Specializes in AI-integrated electronics, chip design, and renewable energy verification.

Technical Highlights:

- **Future of EE:** The speaker painted a clear picture of the industry's direction, emphasizing opportunities in **AI-integrated electronics** and **intelligent automation**.
- **Bridging Fields:** Insights were shared on how foundational knowledge of circuits is essential for modern applications in **semiconductor fabrication** and **IoT**.
- **Personal Journey:** Sudipta shared candid reflections on his transition from a Solar System Verification Engineer in Bangladesh to pursuing advanced research in the USA, offering a roadmap for students aiming for higher studies abroad.

Event Features:

- **Gamified Learning:** For the first time in the series, a **Kahoot! Quiz Session** was conducted by **Musavvir Haque** (Vice Chair, Technical), which injected energy and competitive spirit into the event.
- **Interactive Q&A:** A thoughtful Q&A segment was moderated by **Shakib Shahriar**, allowing participants to ask technical questions regarding chip design and AI integration.
- **Hosting:** The session was gracefully anchored by **Saklain Mustak**, ensuring a smooth flow of events.

Workshop on Basics of Creative Graphic Design on Canva - Skill Development Expedition 1.0 organized by IEEE JUST Student Branch

Location: FET Gallery, Sir Jagadish Chandra Bose Academic Building	Event Date: 06/09/2025 Time: 10:30 am – 1:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Offline
	
	 View at IEEE Vtools

Marking the commencement of a new strategic initiative, the **IEEE JUST Student Branch** successfully launched "**Skill Development Expedition 1.0**" with an inaugural workshop titled "**Basics of Creative Graphics Design on Canva.**"

The event was organized to bridge the gap between technical engineering skills and creative presentation. It provided members with a comprehensive toolkit to enhance their visual communication skills, which are increasingly vital in academic research, professional branding, and the freelancing marketplace.

Objectives:

The workshop was designed with a focus on practical upskilling:

- **Tool Proficiency:** To demystify the interface of **Canva** and enable members to create professional-grade designs without complex software.
- **Academic Application:** To demonstrate how graphic design aids in research posters, presentation slides, and project documentation.
- **Professional Growth:** To introduce the concept of the "**Leaderboard**" system for tracking member growth and leadership development within the branch.

Resource Persons & Instructors:

The session was conducted by the branch's internal experts, ensuring a tailored learning experience.

Instructor	Role	Session Focus
Abdullah Shadek Fahim	Chair, IEEE JUST SB	Strategic Design Utility Covered the importance of Canva for academic research and personal branding in the freelancing sector.
Md. Ratul Hasan	Graphic Designer, IEEE JUST SB	Live Demonstration Provided a hands-on walkthrough of design principles, color theory, and real-time project creation on Canva.

Event Highlights:

- **Inauguration:** The session commenced with a recitation from the Holy Quran by **S.M. Sawat**, followed by a welcome address from hosts **Al Shaharia Rafid** and **Khaleda Yeasmin Mim**.
- **Motivational Address:** **Md. Shahiduzzaman** (Treasurer) set the tone for the event by outlining the vision of the Skill Development Expedition and the importance of continuous learning.
- **Interactive Assessment:** To ensure knowledge retention, a live quiz was conducted via **Slido** by **Musavvir Haque** (Vice-Chair, Technical), fostering a competitive yet collaborative environment.
- **Recognition:** The workshop concluded with a certification ceremony led by **Md. Musfiqur Rahman** (Secretary), acknowledging the efforts of the conductors and the achievements of the quiz winners.

Introduction to IEEE Xtreme 19.0 – The Global 24-Hour Programming Challenge

Location: FET Gallery, Sir Jagadish Chandra Bose Academic Building	Event Date: 06/09/2025 Time: 10:30 am – 1:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE SPS JUST SBC, IEEE JUST WIE SB AG
Event Type: Technical	Mode: Offline
	
	 View at IEEE Vtools

As a precursor to the world's most prestigious competitive programming event, the **IEEE JUST Student Branch** organized a strategic preparatory session titled "**Road to IEEE Xtreme 19.0**" on **September 6, 2025**. Held at the **FET Gallery, JUST**, the session served as a launchpad for aspiring coders, engaging them with the global community of IEEE programmers.

The event was designed to demystify the intense 24-hour hackathon format and provide a clear roadmap for students eager to represent the university on the international stage.

Objectives:

The session was convened with specific preparatory goals:

- **Awareness:** To introduce the history, significance, and scale of the IEEEExtreme global competition.
- **Operational Guidance:** To clarify the technicalities of team formation, proctor selection, and the registration process.
- **Strategic Preparation:** To share resources and time-management strategies essential for enduring a 24-hour coding marathon.

Keynote Speaker:

The session was conducted by the branch's appointed ambassador for the competition, ensuring expert guidance.

Speaker Name	Role	Expertise
Jahidul Islam Shanto	IEEEExtreme Ambassador Webmaster, IEEE JUST SB	Competitive Programming Provided insights into problem-solving strategies and the evaluation metrics of the contest.

Session Highlights:

- **Competition Framework:** The speaker provided a detailed breakdown of the competition structure, including the types of algorithmic problems typically presented (e.g., dynamic programming, graph theory).
- **Resource Sharing:** Participants were introduced to essential practice platforms and debugging strategies to enhance their coding efficiency.
- **Community Commitment:** The event witnessed enthusiastic participation, reflecting a growing culture of coding within the branch. The session concluded with a Q&A segment where students clarified doubts regarding team composition and eligibility.

Women in Technology and Beyond: Opportunities for Students in IRELAND and the UK

Location: Google Meet	Event Date: 18/09/2025 Time: 9:30 pm – 11:00pm
Organizer: IEEE JUST WIE Student Branch Affinity Group	Co-organizer: IEEE JUST SB, IEEE WIE Affinity Group Student Branch DU and IEEE DIU SB WIE Affinity Group
Event Type: Technical	Mode: Online
	 View at IEEE Vtools

In a significant collaborative effort to empower female technologists, the **IEEE JUST WIE Student Branch Affinity Group** successfully organized an international webinar titled **"Women in Technology & Beyond"** on **September 18, 2025**. The event was conducted in partnership with the IEEE WIE Affinity Groups of Dhaka University (DU) and Daffodil International University (DIU).

The webinar served as a global bridge, connecting Bangladeshi students with academic and professional opportunities in Europe, while highlighting the pivotal role of women in the evolving landscape of technology.

Objectives:

The session was convened with three primary goals:

- **Global Mobility:** To provide a clear roadmap for students aspiring to pursue higher education and careers in **Ireland** and the **UK**.
- **Empowerment:** To promote the role of women in STEM and highlight the impactful contributions of **IEEE Women in Engineering (WIE)** globally.
- **Networking:** To facilitate direct interaction between students and global tech leaders.

Keynote Speaker:

The session was headlined by a distinguished global leader in technology standards and education.

Speaker Name	Designation	Expertise
Ruth G. Lennon	Lecturer, Atlantic Technological University, Ireland Director, Craobh Technology Consulting Global Leader, IEEE WIE	Cloud Computing & Standards Convenor for ISO/IEC JTC 1/SC 38/WG 6; Advocate for diversity in tech and global student empowerment.

Event Highlights:

- **Inauguration:** The session was set in motion by the engaging hosts, **Anmona Khan** (Chair, IEEE WIE SB AG DU) and **Nabila Rahman Ritu** (Chair, IEEE JUST WIE SB AG), who established a vibrant tone for the proceedings.
- **Keynote Insights:** Ruth G. Lennon delivered an inspiring address on the challenges and triumphs of women in tech. A key focus was placed on the specific academic scope available for **Bangladeshi students** in Ireland and the UK.
- **Interactive Learning:** To ensure active engagement, an **Interactive Quiz Session** was led by **Nabila Rahman Ritu**.
- **Advisory Support:** The event's success was underpinned by the guidance of respected advisors **Dr. Farzana Khanam** and **Dr. Tama Fouzder**, who presented a virtual "Token of Gratitude" to the speaker.
- **Acknowledgment:** Special recognition was extended to **Abdullah Sadhek Fahim** (Chair, IEEE JUST SB) for initiating this cross-university collaboration.

Workshop on Hands-on PCB Design and LIVE Demonstration - Skill Development Expedition 1.0 organized by IEEE JUST Student Branch

Location: FET Gallery, Sir Jagadish Chandra Bose Academic Building	Event Date: 24/09/2025 Time: 10:30 am – 1:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: None
Event Type: Technical	Mode: Offline
	
	
	
 View at IEEE Vtools	

Continuing the momentum of the **Skill Development Expedition 1.0**, the **IEEE JUST Student Branch** successfully conducted **Session #02**, focusing on the fundamental engineering skill of **Printed Circuit Board (PCB) Design**.

The session was organized to bridge the gap between theoretical circuit analysis and physical hardware implementation. By providing a live demonstration, the workshop aimed to demystify the fabrication process and equip students with the technical confidence required for hardware prototyping and project development.

Objectives:

The workshop was designed with a focus on practical engineering skills:

- **Technical Proficiency:** To introduce industry-standard tools and design procedures for creating functional PCBs.
- **Hands-on Application:** To demonstrate the transition from schematic diagrams to physical board layouts through a live walkthrough.
- **Continuous Engagement:** To sustain member participation through gamified learning and the evaluation of tasks assigned in previous sessions.

Resource Person & Instructor:

The technical session was led by the branch's Program Coordinator, ensuring a peer-to-peer learning environment that was both professional and accessible.

Instructor	Role	Session Focus
Md. Mustakim Islam	Program Coordinator, IEEE JUST SB	Live Design & Demonstration Covered PCB design fundamentals, tool utilization, and real-world circuit implementation strategies.

Event Highlights:

- **Inauguration:** The event commenced with a solemn note, featuring recitations from the **Holy Quran** by **Nahid Hasan** and the **Geetha** by **Anindita Majumder**, reflecting the inclusive spirit of the branch.
- **Technical Core:** The highlight was the **Live Demonstration**, where theoretical concepts were instantly applied to real-world practices, allowing attendees to witness the complete design workflow.
- **Competitive Engagement:**
 - **Quiz:** An interactive quiz using **Slido** was conducted by **Jahidul Islam Shanto** to test immediate knowledge retention.
 - **Task Showcase:** A unique competition segment featured presentations from the **Primary Task Winners of Session #01**, showcasing the continuity and impact of the expedition series.
- **Recognition:** The session was graced by **Dr. Engr. Md. Amzad Hossain** (Counselor), who served as the guest judge. An appreciation ceremony celebrated the quiz winners and the top performers on the **Skill Development Leaderboard**.

IEEE JUST Student Branch Celebrates IEEE Day 2025 with Great Enthusiasm

Location: FET Gallery, Sir Jagadish Chandra Bose Academic Building	Event Date: 07/10/2025 Time: 11:30 am – 2:00pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE SPS JUST SBC, IEEE WIE JUST SB AG
Event Type: Non Technical	Mode: Offline
	
	
	 View at IEEE Vtools

The celebration commenced at around 12:00 PM with a colorful rally across the campus, where enthusiastic members, students, and faculty joined together under the banner of IEEE JUST SB. Following the rally, the attendees gathered at the FET Gallery, where the formal program began.

The program began with the National Anthem of Bangladesh, as everyone stood together in unity and respect. To mark the joyous occasion, a cake-cutting ceremony was held at the very beginning, symbolizing unity and the shared spirit of technological pursuit. In a heartwarming moment, the Vice Chancellor personally fed cake to several students and members of the organizing team, including the Branch Chair—symbolizing his appreciation and encouragement for their efforts. Soon after, the distinguished guests took their seats on stage, and the session officially started with the recitation from the Holy Quran and a Geetha recitation—representing the harmony of culture and inclusivity within the IEEE community.

The celebration was graced by the presence of:

- Professor Dr. Md. Abdul Mazid, Honorable Vice Chancellor, JUST — *Chief Guest*
- Professor Dr. Hossain Al Mamun, Treasurer, JUST — *Special Guest*
- Md. Amzad Hossain, Dr. Eng, Counselor, IEEE JUST SB — *Convenor*
- Dr. Mehedi Hassan (Jewel), Dr. Kamrul Islam, and Dr. Farzana Khanam — *Advisors, IEEE JUST SB*
- Dr. Engr. Imran Khan, Chairman, Department of EEE, JUST — *Guest of Honor*

The main program was hosted by Md. Shahiduzzaman, Treasurer, IEEE JUST SB, who maintained a warm and engaging flow throughout the event.

As the IEEE Day Campus Ambassador, Md. Ratul Hasan delivered the opening speech, sharing the essence and history of IEEE Day while reflecting on the global impact of IEEE's mission. His words inspired the audience to embrace innovation and contribute meaningfully to technological advancement.

Following him, Abdullah Shadek Fahim, Chair of IEEE JUST Student Branch, addressed the audience on behalf of the branch. He expressed gratitude to all the faculty members and guests for their presence and highlighted the branch's achievements, ongoing initiatives, and commitment to empowering students through technology-driven learning. During the speeches, slices of cake were also distributed among the attendees.

The program then featured an IEEE Quiz Session, conducted by Musavvir Haque, Vice-Chair (Technical), IEEE JUST SB, which added an element of excitement and engagement to the celebration. Participants actively joined through the interactive quiz platform, making the atmosphere lively and competitive. The winners were later announced on stage, and the Honorable Vice Chancellor personally handed over the certificates to the winners, appreciating their enthusiasm.

In his speech, Professor Dr. Hossain Al Mamun, Treasurer of JUST, praised the students for their outstanding organization and participation. He mentioned that the arrangement and engagement reminded him of similar programs he had witnessed abroad. He also shared his

encouragement after studying IEEE's activities, urging the branch to continue such impactful and structured events in the future.

Professor Dr. Md. Abdul Mazid, Honorable Vice Chancellor of JUST, delivered an inspiring address as the Chief Guest. He commended IEEE JUST Student Branch for its continuous contribution to the university's academic and cultural growth. He emphasized his vision of making JUST a research-based university and expressed his desire to establish an Energy Research Hub to drive innovation in sustainable energy solutions. He advised students to stay focused, avoid misinformation, and contribute positively to the university's progress.

Md. Amzad Hossain, Dr. Eng, Counselor, IEEE JUST SB, concluded the session with his remarks, expressing immense pride in the branch's progress. He commended the IEEE JUST Student Branch as one of the most active and organized student communities on campus, acknowledging their consistent dedication, teamwork, and professionalism in every initiative.

The celebration concluded with a group photo session, capturing the joyful moments shared by guests, teachers, and students. Later, the invited guests visited the IEEE JUST SB Showcase Board, where they expressed their appreciation for the branch's creativity and consistency in activity presentation.

The program officially ended around 2:00 PM, marking yet another successful event by IEEE JUST Student Branch—one that not only celebrated IEEE Day but also strengthened the sense of community, collaboration, and leadership among students.

Webinar on 2026 IEEE SPS SigMA Program

Location: Google Meet	Event Date: 19/10/2025 Time: 9:00 pm – 10:30pm
Organizer: IEEE Signal Processing Society JUST SB Chapter	Co-organizer: IEEE JUST SB, IEEE WIE JUST SB AG
Event Type: Technical	Mode: Online
	
	 View at IEEE Vtools

In a dedicated effort to connect students with global mentorship and funding opportunities, the **IEEE SPS JUST Student Branch Chapter** successfully organized an insightful webinar on the **2026 IEEE SPS SigMA Program** on **October 19, 2025**. The session was exclusively curated for IEEE JUST SB and SPS members, serving as a comprehensive guide to understanding this globally recognized initiative.

The webinar aimed to demystify the application process for the **Signal Processing Society Student and Young Professional Mentoring Program (SigMA)**, which connects students with mentors worldwide and offers significant travel grants.

Objectives:

The session was convened with specific strategic goals:

- **Program Awareness:** To provide a detailed overview of the SigMA program's purpose and eligibility criteria.

- **Funding Guidance:** To explain the benefits, specifically highlighting the **\$2,000–\$4,000 USD** funding support sponsored by the IEEE Signal Processing Society.
- **Mentorship Development:** To educate students on how to approach faculty for research guidance and professional development.

Keynote Speaker:

The core technical presentation was delivered by the Chapter Chair, ensuring that peer-to-peer guidance was accessible and practical.

Speaker Name	Role	Session Focus
Musavvir Haque	Chair, IEEE SPS JUST SB Chapter	SigMA Program Overview Covered application strategies, funding benefits, and eligibility requirements for the 2026 cycle.

Distinguished Guests & Mentors:

The event was elevated by the presence of esteemed faculty members who provided motivation and academic context.

- **Md. Mehedi Hasan** (Asst. Professor, Dept. of EEE): Delivered an inspiring speech on the importance of seeking academic and research mentorship.
- **Dr. Eng. Md. Amzad Hossain** (Counselor, IEEE JUST SB): Commended the chapter's consistent activities and encouraged further engagement.
- **Farzana Khanom** (Advisor, IEEE JUST SB): Added immense value with her gracious presence and motivational remarks.

Event Highlights:

- **Interactive Learning:** An engaging Q&A session allowed participants to clarify doubts regarding the application timeline and mentorship selection.
- **Gamification:** To maintain high energy, a **Quiz Segment** was conducted by **Al Muzahid**, adding a lively competitive element to the technical session.
- **Hosting:** The event was seamlessly anchored by **Jahidul Islam**, ensuring a professional flow from inauguration to the vote of thanks.

CV & LinkedIn Building Session

Location: Google Meet	Event Date: 22/10/2025 Time: 9:00 pm – 10:30pm
Organizer: IEEE Signal Processing Society JUST SB Chapter	Co-organizer: IEEE JUST SB, IEEE WIE JUST SB AG
Event Type: Technical	Mode: Online
	

Recognizing the necessity of a strong digital footprint in the modern recruitment landscape, the **IEEE SPS JUST Student Branch Chapter** organized a pragmatic workshop titled "**CV & LinkedIn Building**" on **October 22, 2025**.

The session was designed to serve as a comprehensive guide for students entering the competitive job market. It focused on the technicalities of drafting an industry-standard Curriculum Vitae (CV) and the strategic optimization of LinkedIn profiles to enhance professional visibility.

Objectives:

The workshop was convened with the following career-oriented goals:

- **Profile Optimization:** To teach the nuances of creating an "All-Star" LinkedIn profile that attracts recruiters.

- **Effective Documentation:** To demonstrate how to structure a CV that accurately reflects skills, achievements, and career goals without clutter.
- **Professional Branding:** To instill confidence in participants regarding how they present themselves professionally, both online and offline.

Resource Person:

The session was led by a senior student leader who provided peer-to-peer mentorship based on real-world experiences.

Speaker Name	Designation	Session Focus
Musavvir Haque	Chair, IEEE SPS JUST SB Chapter	Profile Strategy Provided practical tips on keyword optimization, skill endorsement, and impactful CV formatting.

Event Highlights:

- **Practical Walkthrough:** The speaker provided a step-by-step guide on transforming a generic profile into a professional portfolio, using real-life examples to highlight common mistakes and best practices.
- **Interactive Gamification:** To ensure active learning and retention, an **Interactive Quiz Segment** was conducted by **Ibrahim Khalil**. This added a fun, competitive twist to the learning experience.
- **Event Management:** The session was gracefully hosted by **Jahidul Islam Shanto**, who ensured a seamless transition between the technical presentation and the interactive segments.

Webinar on Community Detection in Temporal and Multilayer Networks: Algorithms and Applications

Location: Google Meet	Event Date: 05/11/2025 Time: 9:30 pm – 10:40pm
Organizer: IEEE Signal Processing Society JUST Student Branch Chapter	Co-organizer: IEEE JUST SB, IEEE WIE JUST SB AG
Event Type: Technical	Mode: Online
	
 View at IEEE Vtools	

Continuing its commitment to high-level technical dissemination, the **IEEE SPS JUST Student Branch Chapter** organized a specialized webinar titled "**Community Detection in Temporal and Multilayer Networks: Algorithms and Applications**" on **November 5, 2025**.

The session was designed for advanced students and researchers, moving beyond basic network theory to explore complex, high-dimensional systems. It provided a platform to understand how evolving algorithms are used to analyze dynamic data structures in both social and biological contexts.

Objectives:

The webinar was convened with specific technical goals:

- **Beyond Static Networks:** To highlight the limitations of traditional static network analysis and introduce the necessity of temporal modeling.
- **Algorithmic Proficiency:** To familiarize participants with advanced **matrix and tensor factorization techniques** essential for analyzing multilayer data.
- **Interdisciplinary Application:** To bridge the gap between engineering theory and practical applications in fields like **brain connectomics** and social network analysis.

Distinguished Speaker:

The session was headlined by a renowned academic and researcher from the United States.

Speaker Name	Affiliation	Expertise
Prof. Selin Aviyente	Professor, Dept. of ECE & BME, Michigan State University (USA)	Signal Processing & Machine Learning Recipient of the NSF CAREER Award; Chair, IEEE SPS Bioimaging Technical Committee (2022-23).

Technical Highlights:

- **Core Discourse:** Professor Aviyente delivered a masterclass on the theoretical foundations of network science, specifically focusing on how to detect communities within networks that change over time (temporal) or exist across multiple layers (multilayer).
- **Interactive Engagement:**
 - **Q&A:** A deep-dive Q&A session allowed participants to discuss real-world constraints of these algorithms.
 - **Quiz Segment:** To ensure concept retention, a spirited **Quiz Segment** was conducted by **Ibrahim Khalil**, adding an engaging conclusion to the technical talk.
- **Event Management:** The session was seamlessly facilitated by **Jahidul Islam Shanto**, ensuring professional decorum throughout.

Website Design using WordPress: A Complete Roadmap - Skill Development Expedition 1.0

Session #03

Location: Google Meet	Event Date: 06/11/2025 Time: 10:30 pm – 11:40pm
Organizer: IEEE JUST Student Branch	Co-organizer: IEEE JUST SB, IEEE WIE JUST SB AG
Event Type: Technical	Mode: Online
	

Continuing the success of the **Skill Development Expedition 1.0**, the **IEEE JUST Student Branch** organized **Session #03** titled "**Website Design using WordPress: A Complete Roadmap with Live Demonstration.**"

In an era where digital presence is paramount, this session was curated to empower members with the technical know-how to build and customize professional websites. It served as a practical gateway into the world of web development, catering to both academic project needs and potential freelancing careers.

Objectives:

The workshop was designed to provide a comprehensive end-to-end guide:

- **Workflow Mastery:** To guide participants through the complete lifecycle of website creation, from acquiring domain and hosting to final deployment.
- **Tool Proficiency:** To demonstrate the power of the WordPress ecosystem, focusing on theme customization and essential plugin integration.
- **Freelance Readiness:** To bridge the gap between technical skills and market demand, leveraging the instructor's industry experience.

Resource Person & Instructor:

The session was conducted by the branch's Chair, bringing his professional industry experience directly to the students.

Instructor	Professional Credential	Session Focus
Abdullah Shadek Fahim	Level 2 Seller, Fiverr Chair, IEEE JUST SB	Practical Implementation Shared real-world insights on building scalable websites and navigating the freelance web design market.

Event Highlights:

- **Live Demonstration:** The core of the session was a hands-on walkthrough where the instructor built a site structure in real-time, demystifying the WordPress dashboard.
- **Technical Deep Dive:** Key technical areas were covered, including:
 - **Domain & Hosting:** Understanding the server-side basics.
 - **Customization:** modifying themes to suit specific branding needs.
 - **Plugins:** Extending functionality for e-commerce, SEO, and security.
- **Interactive Engagement:** The session witnessed active participation from the members, whose queries regarding CMS (Content Management Systems) and career opportunities made the learning environment highly productive.

Establishment of IEEE JUST Women in Engineering Student Branch Affinity Group

Date of petition submission: 14/08/2025	IEEE approval date: 24/08/2025
Name of the organizer: Abdullah Shadek Fahim	Official launching date: 08/09/2025
Affinity group code: SBA60212245	Section: IEEE Bangladesh Section

A historic milestone was achieved by the IEEE JUST Student Branch during the 2025 tenure with the official establishment of the IEEE JUST Women in Engineering (WIE) Student Branch Affinity Group. This approval marks a significant step forward in the branch's commitment to diversity, inclusion, and the empowerment of female engineers within the university ecosystem.

The Genesis & Approval Process:

The formation of the Affinity Group was the result of a rigorous and dedicated effort by the student leadership to meet global IEEE standards.

- **Petition Submission:** A formal petition was submitted to the IEEE Member and Geographic Activities (MGA) Board on **14 August 2025**. This initiative was spearheaded by **Abdullah Shadek Fahim**, Chair of IEEE JUST Student Branch, who served as the primary organizer.
- **The Signatories:** The petition was ratified and supported by dedicated female members of the branch, whose commitment made this formation possible:
 - **Sadia Afrin**
 - **Jannatun Nayeem**
 - **Rahannuma Orchy**
 - **Mahjabin Rahman Orthi**
 - **Soma Biswas**

- **Official Approval:** The initiative garnered official approval from the IEEE MGA Board on **24 August 2025**. The group was formally chartered and commenced operations on **08 September 2025**, following a comprehensive activity analysis.
- **Leadership Formation:** Following the charter, a selection process was conducted by the Executive Committee of IEEE JUST SB (2024-25) to appoint the most capable leaders to steer the new group.

Mission & Objectives:

The Affinity Group was established with a clear vision to foster an environment where women in technology can thrive. The core objectives include:

- **Empowerment:** To facilitate the recruitment and retention of women in technical disciplines globally.
- **Leadership:** To provide a platform for female students to develop leadership skills and network with successful mentors.
- **Scholarship & Opportunity:** To connect members with global WIE scholarships, awards, and professional development opportunities.

Governance & Mentorship:

The initiative was realized under the strategic guidance of the branch's senior leadership and faculty advisors.

Role	Name & Affiliation
Founding Adviser	Dr. Farzana Khanam Asst. Professor, Dept. of BME, JUST
Branch Counselor	Dr. Eng. Md. Amzad Hossain Counselor, IEEE JUST SB

Attachments:

To document this historic formation, the following documents are appended to the report:

1. **Official Approval Letter:** The confirmation email received from IEEE MGA.
2. **Executive Committee List:** The signed copy of the newly formed IEEE WIE JUST SB Affinity Group ExCom.
3. **Official Logo:** The specialized logo of the IEEE WIE JUST SB Affinity Group.

Establishment of IEEE Signal Processing Society JUST Student Branch Chapter

Date of petition submission: 29/08/2025	IEEE approval date: 05/09/2025
Name of the organizer: Abdullah Shadek Fahim	Official launching date: 20/09/2025
SB Chapter code: SBC60212245	Section: IEEE Bangladesh Section

In a dedicated effort to expand the technical horizons of the student community, the IEEE JUST Student Branch successfully established the IEEE Signal Processing Society (SPS) JUST Student Branch Chapter during the 2025 tenure. This achievement marks a new journey for the branch, creating a specialized platform to foster innovation, research, and collaboration in the critical field of Signal Processing.

The Genesis & Approval Process:

The establishment of this technical chapter followed a structured timeline of dedicated efforts by the student leadership.

- Petition Submission:** The formal petition to establish the chapter was submitted to the IEEE Member and Geographic Activities (MGA) Board on **29 August 2025**. This initiative was spearheaded by **Abdullah Shadek Fahim**, Chair of IEEE JUST Student Branch, who served as the primary petitioner.

- **The Signatories:** The petition was ratified by a dedicated group of founding members whose commitment was instrumental in this achievement:
 - **Musavvir Haque**
 - **Jahidul Islam Shanto**
 - **Mursalin Rahman Riyad**
 - **Md. Rakib Hawlader**
 - **Iftiar Rahman Emon**
 - **Md. Foysal Hossen Shohag**
- **Official Approval:** The petition received official approval from IEEE on **05 September 2025**. The official confirmation email was received on **14 September 2025**.
- **Official Launch:** The Chapter was formally launched and commenced its operations on **20 September 2025**, following the standard administrative procedures.

Mission & Objectives:

The Chapter was established with a vision to bridge the gap between theoretical signal processing concepts and real-world applications. The core objectives include:

- **Specialized Research:** To encourage students to pursue advanced research in image processing, machine learning, and data analytics.
- **Technical Proficiency:** To organize workshops and seminars that enhance skills in tools relevant to the signal processing industry.
- **Global Networking:** To connect local students with the global IEEE SPS community for mentorship and career opportunities.

Governance & Mentorship:

The initiative was realized under the strategic guidance of the branch's senior academic leadership.

Role	Name & Affiliation
Chapter Advisor	Dr. Eng. Md. Amzad Hossain Associate Professor, Dept. of EEE, JUST Counselor, IEEE JUST SB

Attachments:

To document this historic formation, the following documents are appended to the report:

1. **Official Approval Letter:** The confirmation email received from IEEE MGA (dated 14 Sept 2025).
2. **Executive Committee List:** The signed copy of the newly formed IEEE SPS JUST SBC.
3. **Official Logo:** The specialized logo of the IEEE SPS JUST Student Branch Chapter.

Achievements and Key Contributions

Flagship Representation at ICCIT 2024

Location: Hotel Long Beach, Cox's Bazar	Date: December 20-22, 2024
Name of the participant: Abdullah Shadek Fahim	Main organizer: IEEE Bangladesh Section

The IEEE JUST Student Branch marked a significant milestone in its journey of professional excellence through active participation in the 27th International Conference on Computer and Information Technology (ICCIT 2024). Organized by the IEEE Bangladesh Section, this premier gathering of researchers and academicians was held from December 20-22, 2024, at Hotel Long Beach, Cox's Bazar.

The branch's commitment to technical expertise and volunteerism was prominently demonstrated on this national platform.

Key Contributions:

Representation was provided by **Abdullah Fahim** (Chair, IEEE JUST SB), who served as a core volunteer in the capacity of **Technical Session Moderator**. The contribution is summarized below:

Area of Contribution	Details of Engagement
Session Moderation	Skillful management of both online and offline technical sessions, ensuring seamless presentation delivery for international authors.
Technical Management	Resolution of real-time technical challenges and coordination of hybrid conferencing tools to maintain session flow.
Administrative Support	Organization of session paperwork and documentation, upholding the professional standards of the IEEE Bangladesh Section.

Impact & Outcomes:

- **National Visibility:** The professional conduct displayed during the conference reinforced the reputation of IEEE JUST SB as a hub for capable and dedicated student leaders.
- **Strategic Networking:** Collaborative connections were established with volunteers from diverse universities, distinguished authors, and executive members of the IEEE Bangladesh Section.
- **Knowledge Exchange:** The platform facilitated exposure to cutting-edge advancements in computer technology, fostering a culture of innovation within the branch.

Operational Excellence at ICETSD 2025

Location: JUST Campus	Date: February 22-23, 2025
Main organizer: Faculty of Engineering and Technology, JUST	
	

The organizational prowess of the **IEEE JUST Student Branch** was further exhibited through the comprehensive management of the **International Conference on Emerging Technologies and Sustainable Development (ICETSD 2025)**. Over the course of the two-day conference, the branch played a pivotal role in ensuring the seamless execution of this significant academic gathering, leading a coalition of volunteers to manage every logistical aspect of the event.

Areas of Responsibility:

The Student Branch assumed a leadership role, coordinating a multi-dimensional volunteer force to cover all operational sectors:

Operational Domain	Key Responsibilities Managed
Secretariat & Reception	Efficient handling of the registration desk, guest assistance, and final certificate distribution.
Venue Management	Oversight of gallery decoration and venue preparation to ensure a professional ambiance.
Technical Support	Management of technical sessions, ensuring audiovisual stability and smooth transitions between presenters.
Logistics & Hospitality	Coordination of food management for hundreds of attendees and handling of on-ground logistics.

National Achievement at PES Day 2025 Quiz Competition

Location: Online	Date: April 24, 2025
Competition: Quiz Competition 3.0 - Brain Blitz: The Ultimate Knowledge Knockout.	Result: 2nd Runner-Up
Host: IEEE PES AUST Student Branch Chapter and IEEE AUST Student Branch	

The technical acumen of the **IEEE JUST Student Branch** members was once again highlighted on a national platform during the **PES Day 2025** celebrations. On **April 24, 2025**, the **IEEE PES AUST Student Branch Chapter** organized a high-stakes competition titled **"Quiz Competition 3.0 - Brain Blitz: The Ultimate Knowledge Knockout."**

The competition focused on the critical themes of **Clean Energy and Smart Grids**, drawing enthusiastic participation from top universities across Bangladesh. Amidst a fierce battle of wits, our member demonstrated exceptional domain knowledge.

The Winner:

- **Rahul Biswas** (Member, IEEE JUST Student Branch)

This achievement signifies the branch's growing strength in power and energy sectors, showcasing that our members are well-versed in the latest global trends regarding sustainable energy solutions.

Infrastructural Milestone: Inauguration of Showcase Board

Location: 1st Floor, Sir Jagadish Chandra Bose Academic Building, JUST

Date: August 26, 2025

Organizer: IEEE JUST Student Branch

On **August 26, 2025**, the **IEEE JUST Student Branch** achieved a significant infrastructural milestone with the official inauguration of its dedicated **Showcase Board**. The ceremony was officiated by **Dr. Mehedi Hassan (Jewel)**, Associate Professor, Dept. of EEE, and Adviser to the branch.

This initiative represents a strategic step toward enhancing the physical visibility of the branch within the campus. The board serves as a permanent, dynamic interface for the student community, offering a centralized location for information dissemination.

The impact of this initiative garnered high-level administrative recognition during the **IEEE Day 2025** celebrations on **October 7, 2025**. The board was visited by: **Prof. Dr. Md. Abdul Mazid**, Honorable Vice Chancellor of JUST.

Both dignitaries expressed their appreciation for the branch's efforts in maintaining a professional visual archive and establishing a transparent communication channel for technological activities.

Objectives & Utility

The Showcase Board was established to fulfill several key communication goals:

- **Visibility:** To highlight the branch's ongoing activities, recent achievements, and strategic announcements.
- **Archive:** To display photographic memories, preserving the legacy of past events.
- **Accessibility:** To ensure that information regarding collaborations and opportunities is directly accessible to the general student body.

Acknowledgment & Execution

The successful installation of this asset was realized through the unwavering support of **Md. Amzad Hossain, Dr. Eng.** (Counselor of IEEE JUST SB) and the administrative cooperation of **Dr. Engr. Imran Khan** (Chairman, Dept. of EEE).

The project was executed by a dedicated team of student volunteers:

Role	Member Name
Strategic Initiative	Abdullah Shadek Fahim
Project Management	Jahidul Islam Shanto, Ratul Hasan
Art & Decoration	Masud Rana, Rehennuma Orchy, Jannatun Nayeem

Excellence at IEEE BDS Vitality Enhancement Summit 2025

Location: Asia Hotel & Resort, Dhaka

Date: August 29, 2025

Organizer: IEEE Bangladesh Section

The **IEEE JUST Student Branch** demonstrated exceptional competency and innovation at the **IEEE Bangladesh Section Vitality Enhancement Summit 2025**. Held on **29th August 2025** at the **Asia Hotel & Resort, Dhaka**, this high-profile summit gathered the most vibrant student leaders from across the country.

The event was not merely a networking platform but a competitive arena where our members stood out against top-tier talent, securing podium positions in multiple segments.

Competition Highlights:

Our representatives showcased sharp technical acumen and quick thinking in the interactive sessions.

Quiz Competitions

In the highly competitive intellectual showdowns, our executive members secured top ranks:

- **Ratul Hasan** (Graphic Designer, IEEE JUST SB) – **2nd Position** (3rd Quiz Round)
- **Abdullah Fahim** (Chair, IEEE JUST SB) – **3rd Position** (3rd Quiz Round)

3-Minute Idea Pitching Competition

Out of 15 participating teams from various universities, IEEE JUST SB members were instrumental in driving their respective teams to the finals. Remarkable consistency was shown with 3 out of the Top 5 Teams featuring our members (Team Dynamite, Team Phoenix, and Team Sparkloo).

Final Pitch Results:

The final round involved a high-pressure **1-minute pitch presentation** directly in front of the Chief Guest, **Prof. Saifur Rahman** (2023 IEEE President & CEO).

Award	Team Name	IEEE JUST SB Representative	Cross-Branch Collaboration
CHAMPION	Team Dynamite	Ratul Hasan	Collaborated with leaders from Prime University, Dhaka University, Southeast University, and Premier University.
2nd Runner-up	Team Phoenix	Abdullah Fahim	Collaborated with leaders from Dhaka University, Daffodil International University, IUBAT, and AIUB.

Impact:

This achievement highlights the branch's ability to collaborate effectively in diverse, multi-university teams. Pitching successfully to a former IEEE Global President is a testament to the communication skills and innovative mindset fostered within IEEE JUST SB.

Podium Finish at INDCon-2025 Presentation Competition

Location: Online	Date: November 29, 2025
Competition: INDCon-2025 Presentation Competition	Result: 2nd Runner-Up
Host: IEEE MIST Student Branch & IEEE EU Student Branch	
	

The competitive spirit and academic prowess of the **IEEE JUST Student Branch** were further evidenced by the outstanding performance of its members at the **INDCon-2025 Presentation Competition**. Organized jointly by the **IEEE MIST Student Branch** and **IEEE Eastern University (EU) Student Branch**, the event was held at **Eastern University**, attracting diverse talent from across the region.

Against a field of capable competitors, the delegation from IEEE JUST SB demonstrated exceptional clarity of thought and presentation skills, securing a podium finish.

The Winning Team

The accolade was brought home by a dynamic trio of members whose hard work and dedication have brought pride to the entire Jashore University of Science and Technology community:

- **Ratul Hasan**
- **Rahannuma Orchy**
- **Masaba Rahman Suchi**

This achievement underscores the branch's focus on developing soft skills, public speaking, and technical communication alongside core engineering knowledge.

Final Remarks

A Year of Resilience and Innovation

The 2024-2025 tenure has been a transformative period for the IEEE JUST Student Branch. From the successful organization of different online and offline events to the establishment of specialized units like the Women in Engineering (WIE) Affinity Group and the Signal Processing Society (SPS) Chapter, the Branch has redefined the scope of student leadership at Jashore University of Science and Technology.

This year was defined not just by the number of events, but by the depth of impact—bridging the gap between academic theory and industrial application through initiatives like the 45 MT Thesis Talk Series, the Skill Development Expedition 1.0, and the Industrial Visit to Khulna Power Plant. The Branch has successfully cultivated an ecosystem where technical excellence, research innovation, and professional networking thrive.

As this tenure concludes, the foundation has been laid for a future of even greater achievements. The collective efforts of the Executive Committee, the dedication of the volunteers, and the enthusiasm of the general members have created a legacy of excellence.

It is envisioned that the IEEE JUST Student Branch will continue to scale new heights, fostering a community of engineers who are ready to advance technology for the benefit of humanity.

Thank you!

Abdullah Shadek Fahim
Chair, IEEE JUST Student Branch
Executive Committee 2024-25
